

INTRA INDIA INS-OUTS

UP TO THE SUBCONTINENT'S INCONGRUENCY'S BITTER END

The wise fools spoiled the hoary Indian Civilization Ship for a half penny worth of Pakistan tar

The story of Pakistan is a hard lesson in caution against building a nation on a false foundation, namely the little knowledge driven Two Nation Theory. It is a sordid tale of irresponsible play by opportunist politicians with credulous peoples' lives and the million innocent destinies. It is ignorance out to put a show of its superior 'knowledge'. In reality it is nonsense and it is, as Indians tend to say, *Papkaram*. *Papkaram* can have only bad bitter end however colorful the romanticists' soft pedals and those designed but dishonest palliations.

It came so for multiple reasons of little knowledge is a dangerous thing character of the central players- British Empire, All India Muslim League, AIML, Indian National Congress, INC, and, the tormented and troubled mass of Indian people, and, of course, Indian Islam – Islam Umma complex. Little knowledge *is* a dangerous thing.

Indian Islam failed to establish a Koran Kingdom on Indian soil though they had through the centuries of their illegal power hold over Indians moved sky and earth for the purpose. *Ghazwa-e-Hind* was a flop after all the centuries of Islam Sisyphusing. 1857 Indian Islam *ueber*-might lay in a complete shambles, why, in its quick building ruin dunes.

Mohammad Ali Jinnah was anyway half an Englishman, one fourth original Hindu and one fourth convert Momin, quite a horrible hybrid, therefore utterly devoid of the required Mominness to back up his bogus claim to represent Indian Islam. Indian Muslims in turn knew, left pitted against Vedic India at its irrepressible resurgence, they had no chance, and little future. Fair competition is not an Islam virtue. Honesty is the best policy is not *the* Islam strength. Koran is a lamp if Ved and Upanishad is sun. So is the lay of this philosophy land. Islam is a latecomer in history and stands on Christian and Hebrew legs anyway; the Mohammad himself did pick his cues from his associations in the city today called Medina. In hindsight it is a wonder of human ignorance that Islam's Ghazis imagined they could conquer the world as if Alexander the Great was no example, or then their own experiences during their invasion of Europe were not warning enough. The fate of communism and the The Internationale is no lesson to Islam. Total Israel domination of Arab skies is no lesson

to Islam. A handful of successful Jews versus flop Muslim millions is no lesson to Islam. Nothing is a lesson to this ill human breed. India showed them the mirror because it had superior intellectual muscle. Nothing helped them, not even the mighty Moghuls. That is still no lesson to Islam! What are these human type? Such underdeveloped in their minds and brains and the nervous tissue and the synapses!

Indian Islam followers committed the next outrage- the Two Nation Theory thought out incidentally on imperial English soil! *Mande kammin Nanka jd kd manda hoye.*

Muslims cannot live with Hindus. Well, Islam cannot thrive among Hindus, they should have recognized in good time. Islam is incompatible with any other thought system following folks anywhere on earth. They cannot coexist with their 'blood' relatives: Christians and the Jews. But then why did the bloody Caliphates and their Jihadi Ghazis embark on Islam's conquest of rest world? Allah's bidding? If so, here is another Islam white lie caught pants down. But wait; here is more- direct from Holy Bible, Deuteronomy, *the promise of a prophet, 22*

When a prophet speakth in the name of the LORD, if the thing follow not, nor come to pass, that is the thing which the LORD hath not spoken, but the prophet hath spoken it presumptuously...

So, so! If Allah said subdue Kafirs and rule over them all over the earth, then Mohammad is right but Allah is not, for Islam does not rule over entire humanity. It will never ever happen. If Allah said no such thing about ruling over Kafirs, then Prophet Mohammad is wrong. Either Allah is right or Mohammad is wrong. Alternatively, either Allah is wrong, Mohammad is right. What is what? Koran experts, please! Come on! Lay bare the truth- but simple and straight, no storytelling.

Indian Muslims, coming of low Indian castes, hence dimwits and dullards, lacked in living's such essential virtues as come from superior living, say, enlightenment over purports of life. Of course they lacked bright Brahmin brains. They said, no, nothing short of Pakistan! They got their Pakistan. What a mess they have made of their Pakistan! It is double proof that Islam is not suited to Indian subcontinent's ambience. It will do no good- all same to the faithful or to the Kafirs. The condition of Muslims all over the subcontinent speaks volumes on their compulsive backwardness in the art of living and utter poverty in the wealth of demanding intellectual faculty. Pakistan had to steal technology from West to make its Nukes, for instance. Copying the West in science and technology is no good certificate in originality and creativity. Islam will never ever improve upon Koran- by their own Islam compulsion and conduct. Islam cannot appreciate, for instance, the import of this Einstein nugget: *die reinste Form des Wahnsinns ist es, alles beim Alten zu belassen und zu hofen, dass sich etwas andert.* The Mullas and the Maulvis will not get it in another thousand years, I dare say!

The world, however, continues to evolve with time. Either Koran keeps step with time or it vanishes from scene as time makes its temporal strides. But Islam doesn't keep step; it cannot; it lacks required knowledge, skill and ability. It will not acquire required knowledge. Koran doesn't possess that knowledge. Islam doesn't accept that fact. It insists Koran is complete knowledge. Koran is not complete knowledge. What knows Koran about electrons and neutrons and protons and soul and all so many other things of material and spiritual sciences? It is anyway borrowed knowledge from Hebrew and Christian traditions. So the 'damnation' goes on and on and on.

But life doesn't relent. Indian Islam then did fall back on Westminster model of democracy which is admission of Islam inability to 'conjure' a decent body politic from the stores of ideas as given in the Koran. Why must Pakistan practice Westminster democracy if Koran has all the better knowledge wealth in the world?

They call it Holy Koran. I fail to understand what is so Holy about Koran after Maharishi Dayanand tears its holiness down Sura by Sura in his magnum opus, the Satyarthparkash. The Islam experts should take the trouble to have a look into those pages and challenge the Indian Yogi's masterpiece. And yet this Islam wonder of all wonders: Islam says the West is *Haram*, but has no scruples using West made science and technology, especially the Kalashnikov. I will die of laughing, my God!

On to India's next villain, the British. I will here best lean on their own Bard who has given us a lovely description of what the English nation is worth after all; here are the words

I had an Edward, till Richard killed him;/I had a Harry, till a Richard killed him:/Thou hadst an Edward, till a Richard killed him;/ Though hadst a Richard, till a Richard killed him...4.4, Richard III.

Ha! Ha! Ha!

Does it need any more saying on the English genius?

I have this bit to add though: my research shows that the Shakespeare, however good a dramatic poetry buff, was not well learned in history. Here is the proof

This England never did, nor never shall,/Lie at the proud foot of a conqueror...5.7, King John.

Four centuries long lay the English nation at the mercy of Roman Empire! As far future, the English may note that the English earned bad Karma by enslaving Indians. Karma begets retribution. Future will tell how things turn out.

Now to the native Indian heroes of the Indian Freedom Struggle. Their story is at once tragic. The leading lights were but brown Englishmen. They played havoc with Indian destiny- Pakistan is a case in point. More need not be said. INC and AIML were equal

partners in maliciously worked out dismemberment of Indian subcontinent as in the willful sabotage of Indianness, ah! for the gain of peanuts of Pakistan and a truncated India. What a combination of lowly Indians, ignorance packed Islam and the Europe trained *romantikers* of Indian people, leave alone *la albion Perfide*.

I leave Indian people out of my critique, for they merely followed bad leaders. To their credit goes whatever positive worth came out of Indian Freedom Struggle churn. Indian people have carried the burdens of Indian Civilization through the ages. They deserve salute!

Indian people are now charged all over again with high responsibility.

It is their task to first set Indian house in order by, for example, making it run corruption free. Next, they must mind their power in order to master their enemies. The chief occupation has to be the well targeted destruction of the theological state of Pakistan thus paving the paving way for a final assault on Islam. Invader Islam has no business staying on on Indian subcontinent. It must be thrown out with the contempt that it deserves. Islam has its Arabian matrix. Ignorance sick, it doesn't quite know of that geographical mandate from Allah. As it is not willed to know it either, it must be kicked out as soon as possible, and with surgical precision if you please so that the cancer never ever returns to mar Indian life.

India is but Vedic culture, self-sufficient in knowledge stores, but also open to new knowledge: *aa no bhadra kartvo yantu vishwatah*, so!

Islam drew on Christianity and Judaism because Koran is not self-sufficient. Koran is not Ved, nor yet an equal of Upanishad.

Indian Ved is a knowledge sovereign, mortal perfection at its most advanced. Modern Indians doing science and technology is the diadem on the Ved crown.

It is interesting to watch history at work.

Indian subcontinent is again getting on the boil.

The time is on its own abstruse tangent.

Something good will emerge, for, as the Upanishad says, *satyamev jayate, na anritam*. That saying subsumes evil's destruction to each epoch of history. Indians still don't realize it, but their present day tasks are marked out clear on history's page: be the critical ingredient in the destruction of evil. Pakistan in general and Indian Islam in particular are the two faces of evil in need of its total destruction on Indian soil.

Pakistan will have a bad end, just as it had a bad start, millions of innocent citizens forced to walk on glowing coals of disgusting and utterly corrupt Machiavellian

politicians of the mid-20th century Indian history time, the AIML itself outvillaining all Iago, Macbeth, Duryodhan and Dushashan villains put together. The more so it applies to Indian Islam.

Using Chanakya precision, just root it out!

For, it holds that as you sow so you reap!

1854
